

## APPROVED ALLIANCE ENGINEERED FUEL SYSTEMS

APPLICATION GUIDE – FEBRUARY 2025

### Application:

This guide is designed to assist as a reference for the *Sales Representative* in deciding as to whether a specific vehicle/engine combination is covered by an EPA or CARB approval, has a conversion system available and the required certification level of the installation technician.

To be certain that your installation will be EPA compliant, please be sure that your OEM Test Group and OEM Evaporative Group are listed on this document.

### Installation Technician Certification Levels (TCL):

- **A = Conversion Level** – Has been extensively trained and can adapt a universal system to a specific vehicle platform. Can make responsible decisions about component placement, mounting, etc.
- **B = Installer level** – Has been trained in the installation and entry-level diagnostics of “Plug n Play” systems only.
- **C = Maintenance level** – Has been trained on basic maintenance of the VSI systems (e.g., filter replacement, pressure adjustments, and entry-level diagnostics)
- **S = Small Engines** – Has been trained in the conversion of small engine platforms. Can make responsible decisions about component placement, mounting, etc.

**Ready To Ship (RTS):** “√” = ready to ship

**Valve Care (VC):** “√” = Valve Care system required. Approximately 1 liter VC fluid per 1000 liters of Autogas (or \$0.09/gallon)

### Alliance Autogas Systems Training Dates:

Autogas Systems Training events are held regularly at our R&D facility in Asheville, NC. Upcoming dates:

February 18, March 18, April 15

Please contact Jeff Early [jearly@blossmangas.com](mailto:jearly@blossmangas.com) to reserve your place to attend the new format ONE DAY training events.

### Terminology Key:

- “INTERESTED” = We have strong interest in this platform and have pending commitments
- “COMMITTED” = We have committed to certifying this platform soon as quickly as reasonable
- “IN DEVELOPMENT” = We have the test vehicle under construction and are preparing it for testing
- “TESTING” = Vehicle testing currently in progress
- “PENDING” = All testing complete, paperwork being filed with EPA
- All vehicles listed with a ‘BSI Test Group’ number have EPA approvals.

If you have any questions regarding EPA approvals, please email us at [info@AllianceAutogas.com](mailto:info@AllianceAutogas.com) or call 1-800-4AUTOGAS and it would be our pleasure to assist you.

### New features & highlights for February 2025:

- 2025 F250/350 6.8L V8
- 2025 F250/350 7.3L V8
- 2024 Toyota RAV4 2.5L A25A-FKS

## APPROVED ALLIANCE ENGINEERED FUEL SYSTEMS
